

## Partners Data Acquisition Form

This form is intended to collect up-to-date information on ongoing projects, recent publications, technology transfer activities, patents, and awards within BiotroNiS's field of expertise.

Providing this information ensures that your work is accurately represented and actively promoted through our official communication channels. It enables us to highlight your achievements, increase the visibility of your research and innovation activities, and showcase your contributions to partners, stakeholders, and funding bodies.

By completing this form, you directly support the dissemination and recognition of your work, enhancing its outreach, impact, and opportunities for collaboration.

Institution/Company:

Contact Person:
